

# Second Heidelberg Interferons Symposium

July 10–11, 2025

Hörsaal Marsilius Kolleg

Join us if you are interested in the role of interferons in...

- ... anti-microbial immune defenses and autoimmunity/-inflammation
- ... cell homeostasis and cell death
- ... tumor development and control
- ... stem cell maintenance and differentiation

## Keynote speakers

**Megan Stanifer**, University of Florida

Role of Basal Type III Interferon (IFN $\lambda$ 2/3) in Intestinal Epithelial Cells

**Alessandra Mortellaro**, Ospedale San Raffaele - Milano

Type I Interferons at the Crossroads of Immunity and Hematopoiesis: Implications for Bone Marrow Dysfunction

**Nadine Laguette**, IGMM (CNRS) de Montpellier

Shaping of Innate Immune Responses Through the Crosstalk between DNA Damage Response and DNA sensing pathways

**Ana Martín-Villalba**, DKFZ

**Marieke Essers**, DKFZ

**Stefan Jordan**, University Hospital Heidelberg

And of course fantastic talks and posters by YOU!
